(F. HOLMAN, M.A.P.H.I.)

For the Year 1970

POCKLINGTON RURAL DISTRICT COUNCIL

A N N U A L R E P O R T F O R 1970

Public Health Officers of the Authority:

Medical Officer of Health

W. WILSON, M.B., B.Ch., B.A.O., D.P.H.

Public Health Inspector (and Surveyor)

F. HOLMAN, M.A.P.H.I.

Additional Public Health Inspector

G. LISTER (Resigned 30th April, 1970)

C. J. ROBINSON (Commenced 18th May, 1970)

Pupil Public Health Inspector

N. J. FOSTER (Resigned 31st July, 1970)

Divisional Health Office,
Health Centre,
George Street,
Pocklington.

Tel: Pocklington 3091

To the Chairman and Members of the
Rural District Council of Pocklington.

Mr. Chairman, Ladies and Gentlemen,

I have pleasure in presenting for your consideration my Annual Report on the Health and Sanitary circumstances of your area for the year, 1970.

There are no matters on which I wish to make special comment this year.

I should like to express my thanks to the Members of the Council for their support, to the Officials for their co-operation, and to the Chief Public Health Inspector for his help in preparing this report.

I am, Ladies and Gentlemen,

Your obedient servant,

A handwritten signature in dark ink, appearing to read 'W. Wilson', written in a cursive style.

Medical Officer of Health

STATISTICS AND SOCIAL CONDITIONS OF THE AREA

Prevalence of and Control over Infectious Disease

The following cases of infectious disease have been notified during the year:-

Acute Meningitis	Nil	(1)
Dysentery	Nil	(9)
Food Poisoning	Nil	(1)
Infective Jaundice	1	(1)
Measles	167	(Nil)
Tuberculosis (Pulmonary)		..	2	(Nil)
Scarlet Fever	1	(Nil)

(Cases occurring in 1969 are shown in parenthesis)

GENERAL PROVISION OF HEALTH SERVICES IN THE DISTRICT

Nursing

A domiciliary nursing and midwifery service is available throughout the district, as part of the County Council's scheme under the National Health Service Act.

District Nurse/Midwives are stationed at Pocklington, Bubwith, Driffield and Melbourne. A District Nurse is stationed at Market Weighton.

Laboratory Facilities

Bacteriological samples are examined at the Public Health Laboratory situated at Hull.

Routine samples of water are sent to this Laboratory for examination.

Treatment Centres

Child welfare clinics are held weekly at Pocklington, fortnightly at Market Weighton, and monthly at Stamford Bridge, Wilberfoss and Barmby Moor.

Relaxation Classes are held weekly in Pocklington and Market Weighton.

Orthopaedic Clinics are held at York, Driffield and Beverley.

Tuberculosis Clinics are held at Driffield, Beverley and York.

Venereal Disease Clinics are held at York and Hull.

Cytology Clinics are held in Pocklington.

A monthly Family Planning Clinic commenced at Pocklington in April.

An Ophthalmic Clinic is held monthly at Pocklington.

Ambulance Service

Ambulances based at Pocklington are available.

Hospitals

General medical and surgical cases are admitted to hospitals at York and Beverley. Maternity cases go to Fulford, Westow, Driffield and Beverley.

National Assistance Act, 1948

It has not been necessary to take any action under Section 47 of this Act during the year.

Common Lodging Houses

There are no common lodging houses within the area.

To the Chairman and Members of the
Rural District Council of Pocklington.

Mr. Chairman, Ladies and Gentlemen,

I have the honour to present my annual report on the public health circumstances of the District, and of the work carried out by my Department during the year ended 31st December, 1970.

There were several staff changes during the year brought about by the departure of the Additional Public Health Inspector, Mr. G. Lister, who took up a new appointment in June with the Hull and Goole Port Health Authority and the pupil Public Health Inspector, Mr. N. J. Foster, was successful in gaining his Diploma at the first attempt. Immediately following his success he obtained an appointment with the County Borough of Leicester as Additional Public Health Inspector. Mr. C. J. Robinson joined the Department as Additional Public Health Inspector in June and the pupil Public Health Inspector was not replaced. Mr. H. L. Sweeny joined the Department in the capacity of Building Inspector. Mr. W. Marton, who was employed as Clerk of Works on Civil Engineering schemes, obtained another appointment but he was not replaced, arrangements being made to have such works covered by permanent staff employed by the Consulting Engineers. Mrs. M. Hutchinson resigned her post as Clerk/Typist and Mrs. J. P. Barrett was appointed to the vacancy and she took up her duties in June.

I should like to place on record my appreciation for the ready assistance my staff and other Officers have given me, and to the Members of the Council for their support.

I am, Mr. Chairman, Ladies and Gentlemen,

Your obedient servant,

F. HOLMAN

Chief Public Health Inspector

WATER SUPPLY

The supply and distribution of water supplied within the Rural District is controlled by the East Yorkshire (Wolds Area) Water Board and the following details and figures are given through the co-operation of the Engineer to the Board, Mr. H. Ackroyd, whose ready assistance is acknowledged.

The quality of water supplied in the area has been good, only occasionally have any bad samples been reported and these have been due mainly to pollution at the source. All water in the area is chlorinated before passing into supply.

Pocklington Rural District Council's area receives water from five sources which are listed below. From each source a bacteriological examination of raw water is taken once a fortnight and a bacteriological examination of treated water before passing into a supply is taken every week.

The following table is the results of Bacteriological Examination for twelve months ending 31st December, 1970.

Analysis of samples of water:-

Source	No. of samples taken		Satisfactory		Unsatisfactory	
	Raw at Source	Treated in Distribution	Raw	Treated	Raw	Treated
Etton	16	43	16	43	-	-
Market Weighton	26	36	26	36	-	-
Millington	32	51	31	50	1	1
Warter	24	63	24	61	-	2
Kirby Underdale	22	58	22	57	-	1

Chemical analysis from each source in the area show the water to be of satisfactory quality. An example is given below:-

Spring Water, Millington

pH Value	7.2
	p.p.m.
Free Carbon Dioxide	9.0
Free Ammonia as N	0.003
Albumenoid Ammonia as N	0.003
Nitrogen as Nitrates	3.0
Nitrogen as Nitrates	nil
Chlorides as Cl	19.0
Alkalinity as CaCO ₃	120.0
Permanganate figure (N/80 hours)	0.102
Total Solids	280.0
Calcium as Ca	64.0
Magnesium as Mg	0.8
Sodium as Na	19.5
Carbonates as CO ₃	72.0
Sulphates as SO ₄	39.0
Nitrates as NO ₃	13.3
Temporary Hardness	120.0
Permanent Hardness	40.0

No Plumbo solvent action is apparent in the area.

If contamination is suspected chlorine is increased.

The Parishes with houses supplied by standpipes are given below:-

Parish	No. of Houses supplied by Standpipes.
Bishop Wilton	5
Huggate	10
TOTAL	15

Details of the Parishes with Population Figures are given below

POPULATION AND ACREAGE

Parish	Estimated Population	Acreage
Allerthorpe	178	2,393
Barmby Moor	755	2,528
Bielby	166	1,738

South Cliffe	137	3,495
Stamford Bridge	1,200	1,147
Sutton-on-Derwent	351	3,670
Thornton	145	2,327
Warter	173	7,880
Wilberfoss	854	3,187
Yapham	133	1,888

REFUSE COLLECTION AND DISPOSAL

The system of household refuse collection embodies a weekly collection throughout the District and in built-up communities collections are made from the rear of each property. In the outlying area collection is made from the kerbside.

A paper sack collection system is in operation and this was the first full year of its working, so one was able to assess its value during the four seasons. There was no doubt that a vast improvement for all concerned had been brought about by its introduction. In common with many industries, the service was strained in the early part of the year through influenza illness, but with adjustment of labour from other services no interruption to the service occurred.

The Council gave consideration to the introduction of a Trade Refuse collection charge, for this service had been given without charge for a number of years and in the Spring the charges were introduced.

The Council does not possess a refuse tip but an Agreement is in operation with a private firm for the reception of refuse from the Council in a tip centrally situated within the Rural District. The Control of such tip is the responsibility of the Owner and the Council's only commitment is the payment of charges and rodent control.

The Council gave consideration to indiscriminate dumping of refuse in various Parishes and it was decided to seek the co-operation of the Parish Councils in bringing about the cessation of this practice by publicity and the placing of notice boards offering assistance in the removal of refuse from premises over and above the normal household collections.

SEWAGE PURIFICATION AND DISPOSAL

Capital work during the year was confined to the introduction of a sludge disposal plant at the Pocklington Works and work commenced on its installation in the middle of the year. It is anticipated that this new plant will be in operation early in 1971 and it will be capable of dealing with quantities of sludge additional to those produced at Pocklington.

Although the aforementioned plant was part of an overall scheme for the extension of the Works at Pocklington, it was pleasing that approval had been forthcoming but the Ministry withheld final approval for the remaining part of the improvement works, pending a decision on Trade Effluent Agreements with those industries delivering such effluents to the Works, but it was hoped that this approval would be forthcoming in 1971.

During the year the Council gave consideration to installation of "package deal" sewage disposal systems especially in the more remote communities and following a Report by the Consulting Engineers to the appropriate Sub-Committee the matter was not pursued, but the opportunity was taken of reviewing priority as a whole and it was decided that capital works should proceed with the extensions at Pocklington as No. 1 priority, to be followed with a scheme for Fangfoss and Bolton which includes for the enlargement and improvement of the existing Works at Wilberfoss.

Conversions carried out under the previous Southern Area Sewerage Scheme were virtually completed with approximately five that could not be commenced for reasons varying from age and infirmity of occupants but these will automatically be dealt with as the problems resolve themselves.

The following is a list of the disposal systems and sewers available:-

<u>Village</u>	<u>Sewers</u>	<u>Pumping Stations</u>	<u>Disposal Works</u>

HOUSING

At the beginning of the year the housing programme was fluid and no definite plans had been laid but during February the appropriate Committee had to give serious consideration to the clearance of the 45 prefabricated dwellings under the Council's control and which had been erected on two sites at the end of the War. The outcome of discussions with the Ministry was that a programme was formulated for the replacement of 36 of them and a scheme was speedily drawn up and tenders accepted at the end of June. At the end of the year the replacement work was well under way and several of the new bungalows had been occupied.

A scheme which had been afoot for some considerable time for the erection of 20 Welfare bungalows with a Common Room and Warden's accommodation on a site at Pocklington was finalised and tenders were accepted during the summer. The work was well under way towards the end of the year.

The only other scheme that was envisaged was the completion of a Welfare bungalow scheme at Stamford Bridge but nothing definite was decided before the year ended.

The Council gave consideration to the servicing of a small area of land at Stamford Bridge with a view to selling off the plots individually but it was eventually decided that the land should be sold for development by private enterprise and arrangements were made for this to be done. In previous years the Council had carried out improvements to Council houses erected between the Wars but it was decided that a comprehensive improvement scheme be drawn up for the remaining dwellings in the Council's possession. During the year tenders were received and work commenced on bringing the dwellings up to modern standards in six Parishes and the number of dwellings involved was 104 distributed over eight Estates.

The Council has operated the improvement grant system since its introduction in 1949 and the impact of the new grants provided for in the 1969 Housing Act was considered but it was decided that the Council proceed with their confirmed policy of giving the maximum of assistance in respect of properties to be improved in accordance with the prescribed standards.

HOUSING

Since 1945, 1,163 houses of the following types have been built by the Council:

Traditional Brick Houses	1,010
Airey Prefabricated Houses	100
Swedish Timber Houses	8
Temporary House, Aluminium	45
